

APOGEE LABS
2873-884
PLUGGABLE POWER SUPPLY

FEATURES

- 80 watt supply
- Pluggable for easy replacement
- Power on/off switch
- Status terminal for remote monitoring

OVERVIEW

The 2873-884 is the main power supply for the AL2873 series chassis. This supply is switchable enabling both 120 VAC and 240 VAC input. Power output is 80 watts from a combination of the +5V, +12V, -5V, and -12V supplies.

The 2073-884 has the main on/off switch built in and provides output status information for remote monitoring. The supply is pluggable making replacement quick and simple in the event of a power failure

SPECIFICATIONS

GENERAL

- Pluggable module
- Main system power switch

INPUT

- 120 or 240 VAC input
- 47-63 Hz

OUTPUTS

- 80 watts of output power
- +12V, -12V, +5V, -5V voltage levels
- Remote status outputs

ENVIRONMENT

- Operating temperature: 0° C to +55° C
- Storage temperature: -40° C to +70° C
- Humidity: up to 95% non-condensing
